

NEW: RBX-Series

RB-Series

The Republic RB-Centrifugal Blower Series is tried and true as one of the most reliable centrifugal blowers available. But as technology improves, Republic's cutting-edge design capabilities develops one of the most efficient and reliable blower series on the market.

While the RB-Series continues to be dependable, a side-by-side comparison with the RBX-Series showcases why an RBX blower may be for you.

	<b>RBX-SERIES</b>	<b>RB-SERIES</b>
<b>Bearing Housing Assembly</b>	Ceramic hybrid bearings with optimized bearing design for increased reliability	Ceramic hybrid bearings
<b>Seals</b>	Two-piece labyrinth seals specifically designed for RBX blowers	Multi-lip seals on both ends of the shaft
<b>Efficiency</b>	80% peak efficiency allows the use of smaller motors, consuming less energy and reducing operating costs	Standard efficiency
<b>Impeller</b>	CFD-designed impeller and volute	6061 T6 aluminum impeller
<b>Warranty</b>	Two year warranty	One year warranty
<b>Longevity</b>	7-8 times more bearing life	
<b>Convenience</b>	Quick-release filter	

Many applications using the RBX-Series require less horsepower, thus reducing operating costs. The longevity of the RBX-Series reduces downtime and maintenance costs.
